the Court-House in Whiteville, on the 9th inst. On motion of John C. POWELL, Esq., RICHARD WOOTEN, Esq., was called to the Chair, and N. L. ted to act as Secretaries.

On motion, the Chair appointed a Committee of five to draft resolutions for the action of the meeting. ell, W. J. Stanly, and J. C. Powell.

After having retired for a short time, the Committee reported through their Chairman, F. George, Esq., the following preamble and resolutions, which were unanimously adopted:

WHEREAS, It becomes especially necessary in times of great excitement and trial, as at present felt and exhibited throughout our land-when all the elements of political power seem to be thrown into confusion-when the safety of our Union and the harmony which should exist between its difforent sections, are threatened-to recur to the fountain of power, to the great first principles upon which our government is based; and whereas, it has been the constant practice of the Democratic party, at all proper times and on all fit occasions, to publicly and openly avow, and freely and fully express its opinious, as regards the great public measures which shape and control the leading interests of our common country: be it therefore

1. Resolved, That we, a portion of the Democratic party of Columbus county, in public meeting assembled, cherishing as our fondest hope the Union of these sovereign States, and come to greet him on his birth-day. venerating the constitution as the great cord which binds them together, have seen, with deep regret and much indignation, the Northern portion of our confederacy wilfelly disregarding and nullifying that clause in the constitution which relates to the delivering up of fugitive slaves, and the many wrongs and insults which it has from time to time been perpetrating against the South and her institutions.

2. Resolved, That our hopes are strong, and our confidence unshaken, in the great principles of States' Rights Democracy, believing all actions by the General Government tending to advance one section, or class, or interest, at the expense of another, to be undemocratic, unconstitutional, and unjust.

3. Resolved, That we believe in the strict letter of the constitution, since, when a latitudinarian construction is allowed, sectional interest and party prejudice will enter into its interpretation, by which it will be diverted from its true pur

Also in Fits, Cramp, Paralysis and Palsy, Dyspepsia or Indigestion, Rheumatism, Acute and Chronic, Gout, Epilepsy, Lumbago, Denfuess, Nervous Tremors, Palpitation of the Heart, Apoplexy, Neuralgia, Pains in the Side and Chest, Liver Complaint, Spinal Complaint, and Curvature of the Spine, Hip Complaint, Diseases of the Kidneys, Deficiency of Nervous and Physical Energy, and all Nervous Diseases, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System. In Nervous Complaints, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity, and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by outward application, in place of the usual mode of drugging
and physicking the patient, till exhausted nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation
of the blood, promote the secretions, and never do the slightest
injury under any circumstances. Since their introduction in
the United States, only they was since, more than 60,000 Persons,

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Ner-vous complaints, have been Entirely and Permanently Cured, when all hope of relief had been given up, and everything els

been tried in vain!

To illustrate the use of the Galvante Belt, suppose the case of a person afflicted with that bane of civilization, Dys-PEPSIA, or any other Chronic or Nervous disorder. In ordinary cases, stimulants are taken, which, by their action or worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a shor period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continus Galvanic circulation throughout the system. Thus the most severe cases of Dys-PEPSIA are PERMANENTLY CURED. A few days is often amply sufficient to eradicate the disease of years.

Certificates and Testimonials, Of the most undoubted character, from all parts of the country, could be given, sufficient to fill every column in this paper

An Extraordinary Case, conclusively proves that "Truth is stranger than Fic tion." The following letter, narrating one of the most re-markable events in the annals of medical science, is from the Rev. Dr. Landis, a Clergyman of New Jersey, of distinguished attainments and exalted

Sidney, New Jersey, July 12, 1848. DR. A. H. CHRISTIE-Dear Sir: You wish to know of me what has been the result in my own case, of the application of the Galvanic Belt and Necklace. My reply is as follows For about twenty years I had been suffering from Dyspepsia ever. My physicians were skilful and excellent men; but here their prescriptions failed. About fourteen years since. in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after yeur, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief; but this elief was only temporary. Farther: in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an imtion-thus evincing that these disorders were connected with each other through the medium of the Nervous system. My ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the Nervous System must be reached before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopæia there seemed to be no system; everything that I had tried for this purpose had comyour inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNET-IC FLUID. This was in June, 1846. To my great astonishishment, in two days my Dyspepsia had gone; in eight days was enabled to resume my pastoral duties; nor have I since omitted a single service on account of the Bronchitis; and my Rheumatic affection also ceased to trouble me. If time per mitted, I could fill a sheet of paper with the details of partic ulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned; the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestedly being driven from its hold upon my system, and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment. I have recommended the BELT and FLUID to many who have

been likewise suffering from Neuralgic affections. They have tried them, with happy results, I believe in every case. I am, dear sir, very respectfully yours, ROBERT W. LANDIS.

For the Cure of COUGHS, COLDS. HOARSENESS, BRONCHITIS. WHOOPING-COUGH, CROUP ASTHMA and CONSUMPTION

The uniform success which has attended the use of this preparation-its salutary effect-its power to relieve and cure affections of the Lungs, have gained for it a celebrity equalled by no other medicine. We offer it to the afflicted with entire confidence in its virtues, and the full belief that it will subdue and remove the severest attacks of disease upon the throat and Lungs. These results, as they become publicly known, very naturally attract the attention of medical men and philanthropists everywhere. What is their opinion of Cherry Pectoral may be seen in the following :-

Valentine Mott. M. D. Prof. Surgery Med. College, New York, says :-"It gives me pleasure to certify the value and efficacy of Ayer's Cherry Pectoral, which I consider peculiarly adap-ted to cure diseases of the Throat and Lungs." The Rt. Rev. Bishop Field

writes in a letter to his friend, who was fast sinking under an affection of the Lungs:-"Try the CHERRY PECTORAL and if any medicine can give you relief, with the blessing of God of Louisiana, writes "That a young daughter of his was cured of several severe attacks of Croup by the "CHERRY

Diseases have been cured, such as are not furnished in the records e ime past; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It puriles, cleanses, and strengthens the fountain springs of from personal experience to be adapted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints migh be greatly extended to which the Sarsaparilia is adapted, but experience proves it value, and each succeeding day is adding new trophics to its fame.

REMARKABLE CURE OF BRONCHITIS.

Messrs. Sands:—Having suffered many years with a disease of my throat, affecting the larynz, during which time I was treated by the most distinguished physicians in Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful proggitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your value. have terminated my life, had I not obtained relief through the medium of your valuable Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla I did not place much confidence in its virtues; and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity, to give you this attestation of my cure.

CANCEROUS ULCER PERMANENTLY CURED. LET THE PACTS SPEAK FOR THEMSELVES .- The following striking, and, as will be seen, permanent cure of an inveterate CANCER, is only another link in the great chair of testimony to its merits. Let the afflicted read and be convinced. What it has done once it will do again :-

Stamford, Ct., Oct. 5, 1847. Messrs, A. B. & D. Sanns:—Gentlemen—In the year 1842 I was attacked with a cancer in my neck, which soon extended its ravages over the side of my face, eating the flesh, and leaving the cords of my neck bare, discharging very freely, causing intense pain and suffering, depriving me of rest at night and comfort by day, destroying my any state. my appetite, and reducing me almost to the gates of death. I was attended by the first physicians in the state, who prescribed for me, and did all that skill and talent could effect, but during all the time I continued to grow worse under their care. In the Spring of 1844 I chanced to hear of the cures performed by your Sarsaparilia, and determined to try it. I had not used over two bottles before I felt its effects on my system most sensibly. My appetite was soon restored, my strength was increasing, the discharge from the cancer decreased, and I soon began to perceive that the flesh was healing. I continued its use according to directions, and also continued to grow better and better from day to day, until I have been fully and wholly cured by its use. It is now two years since I was cured, and I have remained rearrestly well un to this better and better from day to day, until I have been fully and wholly cured by its use. It is now two years since I was cured, and I have remained perfectly well up to this day. I have delayed giving you this certificate, that I might ascertain whether the disease would reappear; but I am happy and most thankful to again repeat that the eure is a perfect one, and effected wholly by the use of your Sarsaparilla. The scars still remain; and all who know me, and many of the citizens of Stamford, can testify to the severity of my case and my sufferings, and the health-restoring power of your Sarsaparilla. I can with unbesitating confidence recommend its use to every sufferer afflicted with similar complaints. After experiencing what I have from its effects, I can say it one and all, "Hesitate and doubt no longer, but secure to yourselves the health-giving virtue this medicine can alone bestow."

Most gratefully I am, and shall always remain, your friend, ISAAC STEVENS.

TESTIMONY FROM EUROPE. Legation United States, Berlin, Prussia, April 8, 1846.

Messrs. A. B. & D. Sands:—Gentlemen—Having seen your Sarsapatilla used in this city with great effect in a severe case of Schofula, I have been requested to order three dozen bottles, which please send, on the payment of the enclosed draft on Messrs. Henschen & Unkhart, with the least possible delay. I am inspired only by a feeling of philanthropy, in begging you to publish this unasked testimony to the value of a medicine which, widely as it is known, is not known as it ought to be.
